

# With the Samenwerkwijze, we look for a solution to your situation or question together with you and those close to you

## Our agreements:

Your question is the focus. We help as much as possible.

You choose where the collaboration meeting takes place. You are always present.

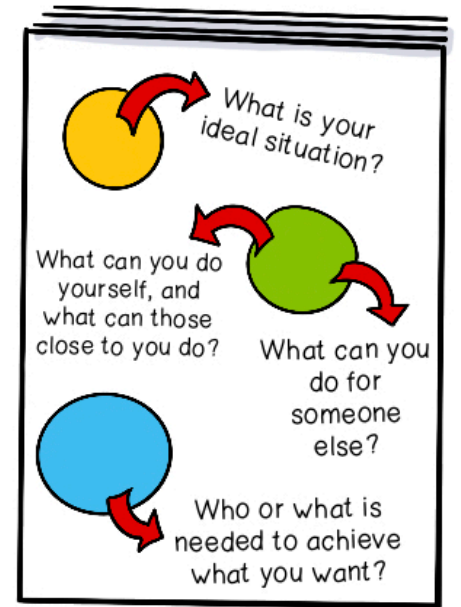

**1** Your Question:

Together we clarify your question

**2** Your Collaboration Plan:

We make 'The Collaboration Plan' with you: what do you want, what can you do and who or what do you need to do this?

Your Collaboration Plan:  
Write down what you want and what you can do. Together we then decide what is needed.

**3** Your Collaboration Meeting:

If several people or organisations are needed, we finalise the collaboration plan at the collaboration meeting. You choose who you want to have there.

**4** Implementing your Collaboration Plan:

Get started with clear agreements; who does what, how and when?

You are the owner of your collaboration plan

We trust that all those present are open and honest.

**5** Evaluation: how did it go?

We check if everything worked out and if your question is complete.

If you want more information or have a question, here are our contact details:
